COUNTY GOVERNMENT INFORMATION CATALOG: 2014

What Information is Included in the Catalog?

The *Government Information Catalog* is a comprehensive guide to the organization and operations of Georgia's local governments. The Catalog is unique in that it provides the data collected directly from local governments including:

- Management functions
- Services provided
- Financial management practices
- Planning, zoning and development procedures
- Public facilities
- Economic development activities
- Public safety
- Form of government
- E-Government

What is the Purpose of the Catalog?

Local elected officials, administrators, state agencies and academics are among those who find the Catalog a useful source of comprehensive information on local government operations in the State. While providing information on specific subjects such as public safety or services provided, the primary purpose of the Catalog is identifying general patterns of government management and operations.

How is the Data Collected?

The data was collected through the Government Management Indicators (GOMI) survey prepared by the Department of Community Affairs (DCA) and administered to all 159 counties in Georgia with a response rate of 98 percent. Due to the large variety of local conditions and characteristics of the governments participating in the mandated survey and the turnover of local government employees, individual responses to specific survey questions may not be consistent from year to year. In addition, data is self-reported and not verified by an outside source. The data presented is best used in summary form to reflect general management practices and services among governments of a similar size.

How Do I Use the Catalog?

1. Determine the population group of the county for which you want information and whether the government responded to the survey. In each of the tables, counties are grouped by population and listed alphabetically within in each group to aid comparisons of similarly sized counties.
2. Use the "Table of Contents" to determine which tables are most likely to have the information you need.
3. Note that each chapter is paginated separately. Some chapters have several sets of tables with pages numbered accordingly. Example: Page 2.b - 1 is the first page of the second table (Table B) in Chapter Two (Services Provided).
4. Each set of tables is preceded by a summary of totals and averages for each population group. The summary tables are useful for comparing an individual county to an aggregate of governments in its population group, and provide an overview of the data in each table.

CHAPTER 1 ♦ Management Functions

This chapter covers the provision of certain management functions that can be performed by local governments.

Ways a government may provide a management function:

- A. Own-government – provided directly by the government
- B. Other government – agreement with other local government(s)
- C. RDC – contracted with regional development commission
- D. Private – contracted with a private provider
- E. Combination – combination of one or more of the above functions
- F. NP – function not provided

Types of management functions include:

- Accounts Payable/Receivable
- Archiving & Historical Data
- Collecting & Maintaining Land Use Data
- Geographic Information System
- Issuing Occupation Tax Certificates
- Law Enforcement Records
- Maintaining Court Records
- Payroll Preparation
- Tax Assessment
- Tax Billing
- Tax Digest
- Utility Bill Preparation
- Voter Registration

CHAPTER 4 ♦ Planning, Zoning and Development Procedures

Governments use planning and zoning mainly to control growth in an area, protect the character of neighborhoods, and ensure efficient and effective service delivery.

Specific items covered in this chapter:

- Presence of a planning commission
- Zoning ordinance - Including official responsible for the zoning ordinance
- Comprehensive Plan - Review and amendments to comprehensive plan
- Variance and special exceptions - When government policymakers grant a property owner a use for their property other than that for which it is zoned.
- Use of codes and ordinances - Local governments pass regulatory codes for the purposes of managing growth, protecting the environment, and promoting public safety and welfare.
- Use of impact fees - Impact fees are intended as a mechanism for growth to pay for itself. Local governments charge developers these fees, and the funds are earmarked for specific purposes based on the assessment method.

CHAPTER 5 ♦ Financial Management Practices

This chapter covers aspects of a local government's finances including financial administration, budgeting, and use of revenue options.

Specific items covered in this chapter:

- **Preparation and approval of annual operating budget** – For governments with an annual operating budget, either the finance officer, elected or appointed executive, city/county clerk, or a combination is responsible for preparing the budget.
- **Presence of a full-time finance director**
- **Type of finance software used**
- **Existence of capital budget** – This budget is prepared by some governments to account for the acquisition of equipment and construction of facilities over a period of time, separate from the annual operating budget.
- **Financial policies** – For some governments there are written policies to govern investment activities and interfund transfers.
- **Types of special tax districts** – Special tax districts allow cities to collect a tax for services directly benefiting the district such as sanitation, drainage and storm water, sewerage, street lighting, street construction, police and fire.
- **Distribution of local option sales tax (LOST)** – State law allows a county and cities within the county jointly to levy a 1 percent sale and use tax. There are several ways of distributing the tax proceeds among cities within a county.
- **Collection and use of special purpose local option sales tax (SPLOST)** – State law also allows adoption of a special local option sales tax for any of the specified purposes in statute.
- **Assessment and collection of occupation tax, regulatory fees and user fees** – Governments may levy taxes on occupations according to state law. The allowable assessment methods include a fixed fee, or an assessment based on number of employees, gross receipts, and profitability ratios.

CHAPTER 6 ♦ Economic Development Activities

This chapter covers the administration and conduct of economic development activities sponsored by a government to attract new business and retain business.

Specific items covered in this chapter:

- Initiatives for economic development activities
- Presence of a full-time economic developer – Some governments employ a full-time staff person dedicated to economic development activities.
- Financial incentives used to attract and retain business – Incentives may include land, grants or loans, and tax incentives, among others.

CHAPTER 7 ♦ Public Safety

This chapter covers provisions of a government's public safety functions, encompassing both fire and police services.

Specific items covered in this chapter:

Law Enforcement

- Existence of police department
- Issuance of handguns
- Use of law enforcement vehicles
- Assigned patrol shift hours
- Jail operations

Fire Services

- Fire classification rating - The Insurance Services Office (ISO) issues a fire protection scale on a range of 1 to 10, with "one" being the highest response and "ten" being the lowest response.
- Number of fire stations
- Use of volunteers for fire fighting - Fire departments can include volunteer fire fighters in their force, or consist of all volunteers.
- Number of fire fighters on duty per shift

CHAPTER 8 ♦ Form of Government

This chapter briefly summarizes how governments elect or appoint their commissioners/mayors and board/council members.

Electing/appointing the chief elected official

- Popular vote
- Vote of council (municipality)
- Vote of commission (county)

Excluding the chief elected official:

- The methods of electing members of the board/council
- The number of seats on the board/council
