

Points for Projects within a Local Government

Per the 2002 Plan, Appendix II Scoring Criteria, Section 2D:

"Four (4) points will be added if the proposed development site is within the boundaries of a Local Government in which a 9% Credit project has not been awarded within the last three (3) DCA funding cycles, or two (2) points will be added if the proposed development site is within the boundaries of a Local Government in which a 9% Credit project has not been awarded in the last two (2) DCA funding cycles. For example, if no projects were awarded in unincorporated Cobb County for the last three DCA funding cycles, but one was awarded in the City of Marietta in 2001, an application for a project from an unincorporated area of Cobb County would receive four (4) points."

To determine the Local Government points available to any given 2002 Application, refer to the attached list of the Local Governments and the following matrix showing the application of this scoring criteria:

4 Points	2002 Application is within a Local Government that is not on the attached list for 1999, 2000, and 2001.
2 Points	2002 Application is within a Local Government that is not on the attached list for 2000 nor 2001.
