About CSH

CSH (Corporation for Supportive Housing) advances affordable and accessible housing aligned with services by advocating for effective policies and funding, equitably investing in communities, and strengthening the supportive housing field. Since our founding in 1991, CSH has been the only national nonprofit intermediary focused solely on increasing the availability of supportive housing. Over the course of our work, we have created more than 467,600 units of affordable and supportive housing and distributed over \$1.5 billion in loans and grants. Our workforce is central to accomplishing this work. We employ approximately 170 people across 30 states and U.S. Territories. As an intermediary, we do not directly develop or operate housing but center our approach on collaboration with a wide range of people, partners, and sectors. For more information, visit www.csh.org.
